

# **Most Powerful Swing Trading Strategy Will Make You Profitable**

**4H TIME FRAME ONLY !!!**

---

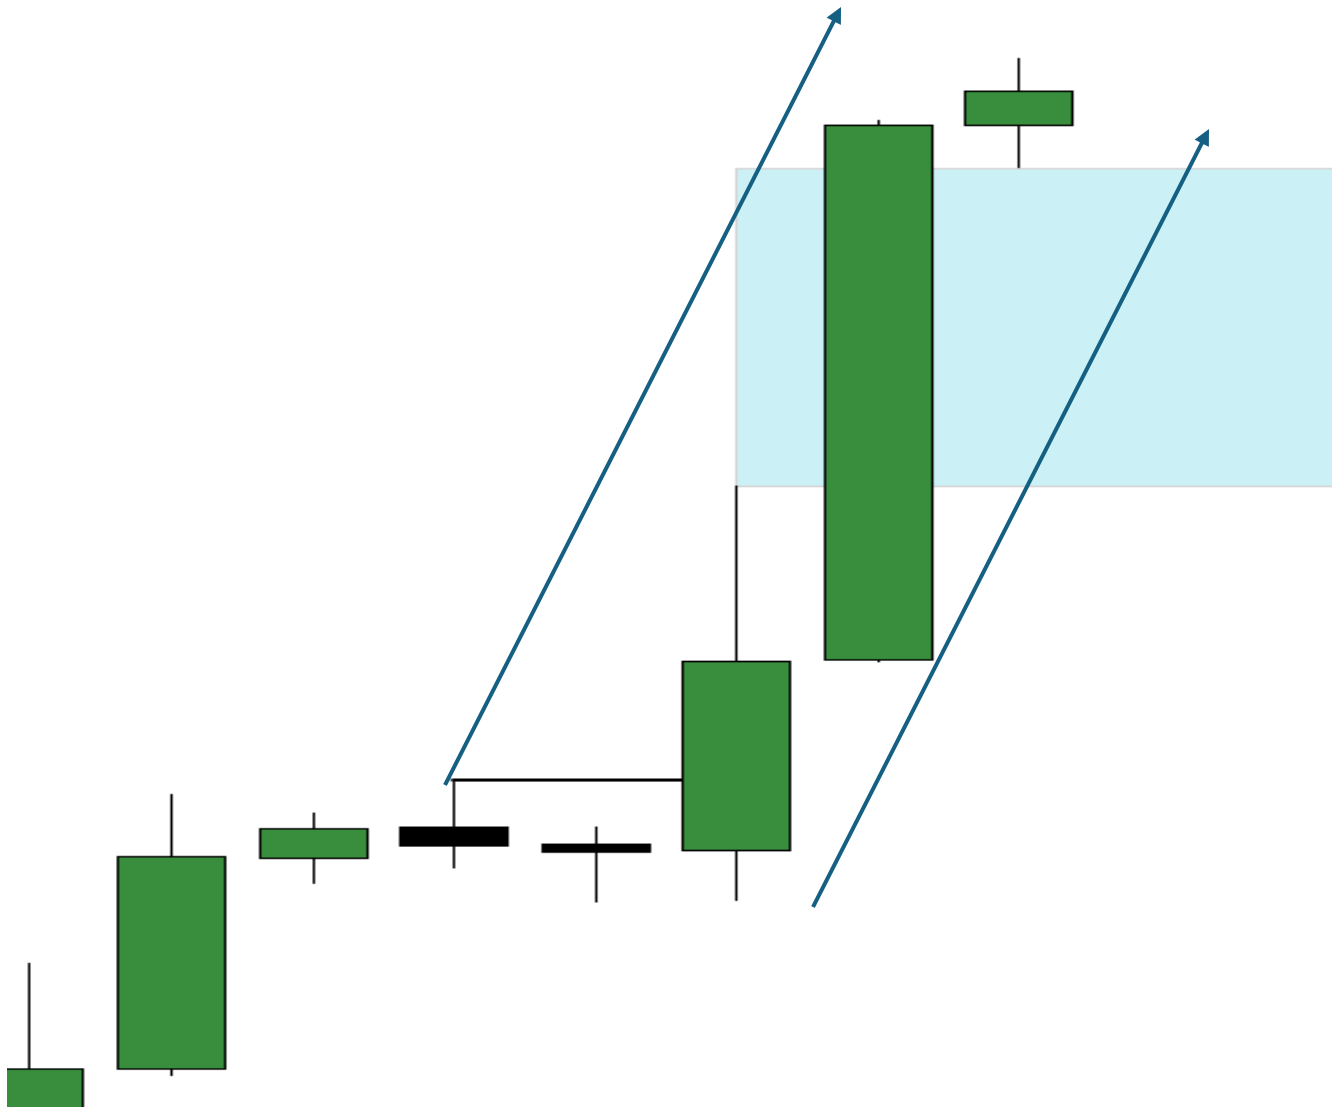

# Example 1. Most Recent Leg

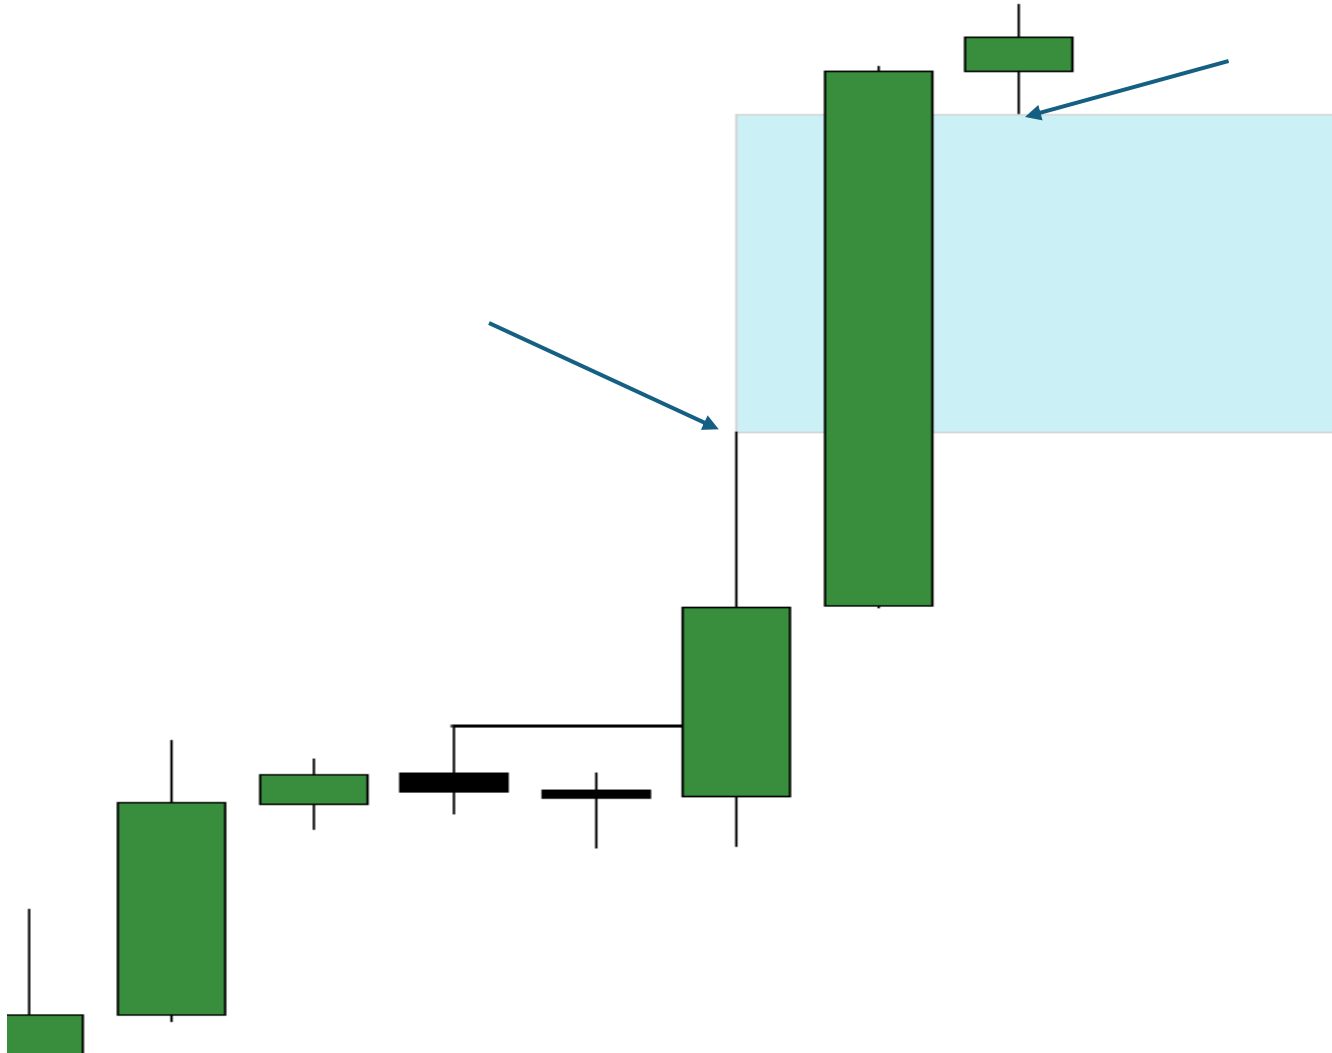

**First of all, we identify the most recent price action leg**

# Example 1. Most Recent Leg

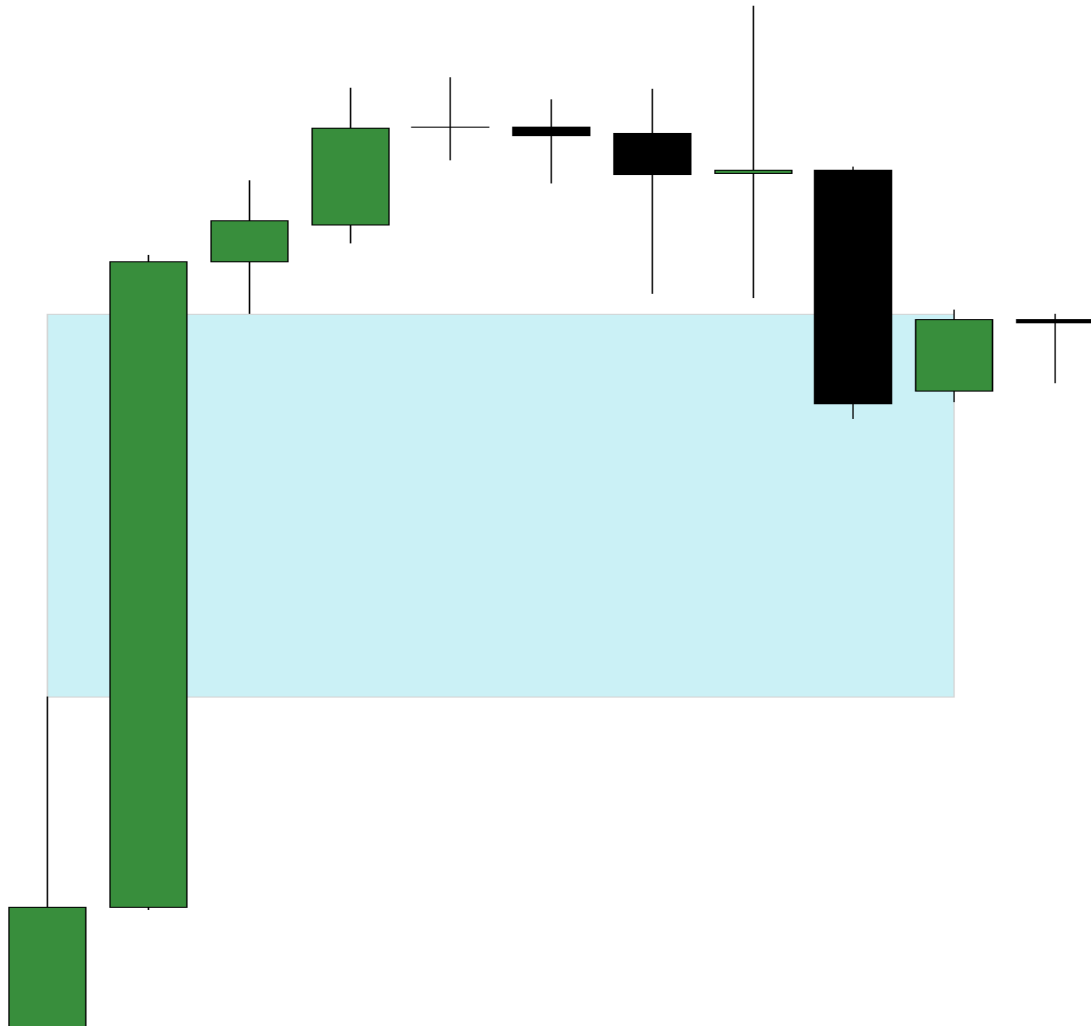

**This is the most recent price action leg (see blue arrows)**

# Example 1. Fair Value Gap

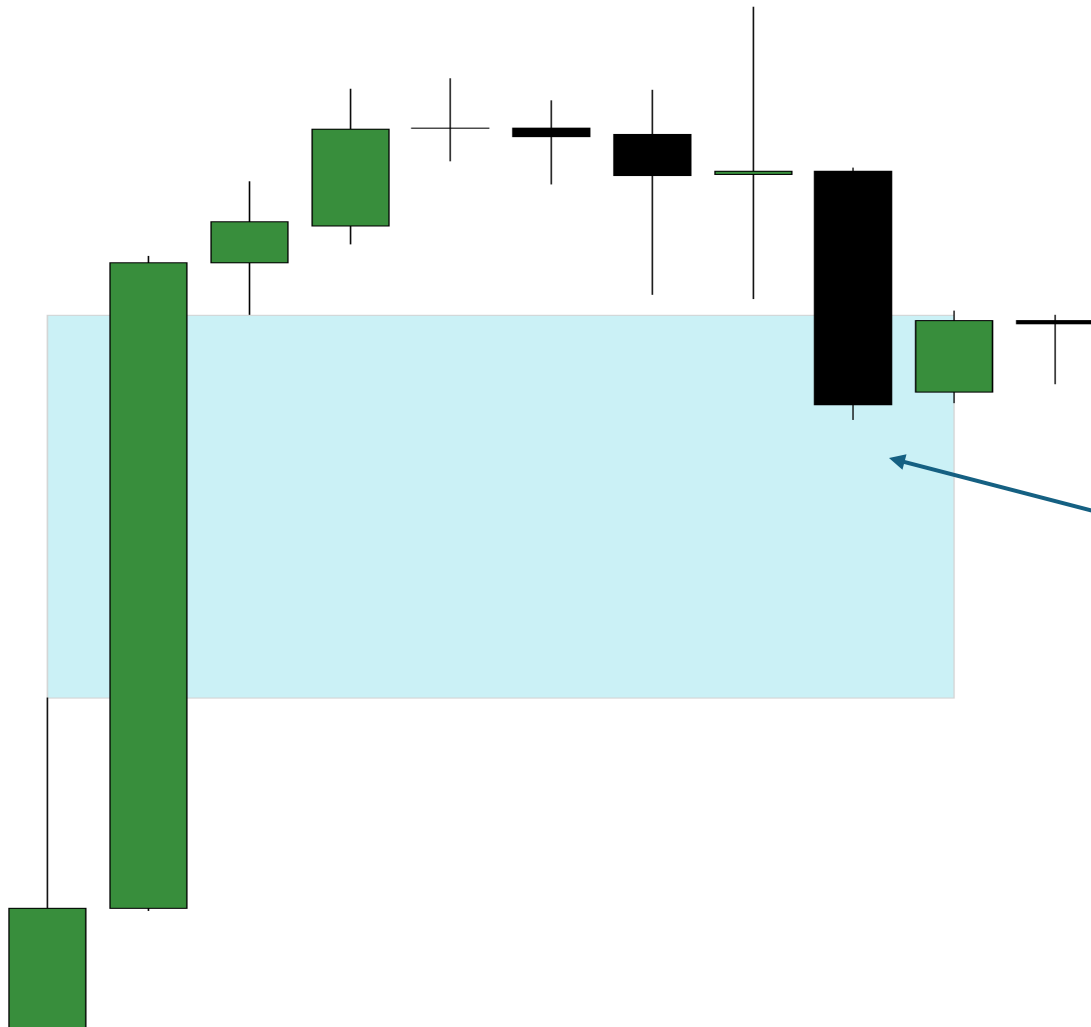

**Then, we identify our most recent Fair Value Gap (FVG). It is the blue area in the image**

# Example 1. Retracement to FVG

**We are now waiting for price to retrace into our FVG.  
But where exactly?**

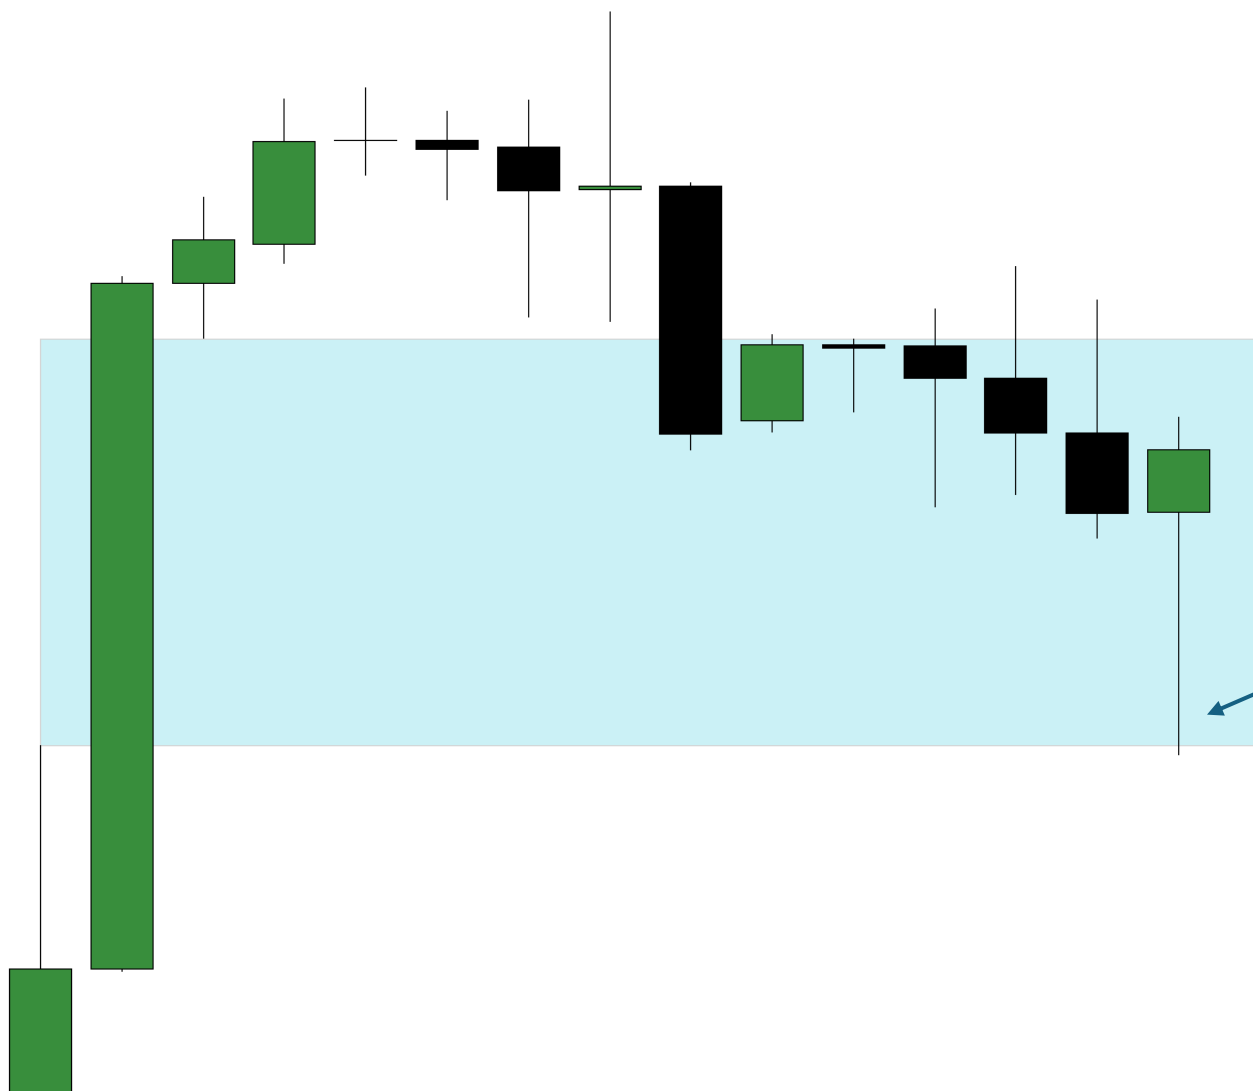

# Example 1. Retracement to FVG

**We are now waiting for price to retrace into our FVG.  
But where exactly?**

**Is it here?**

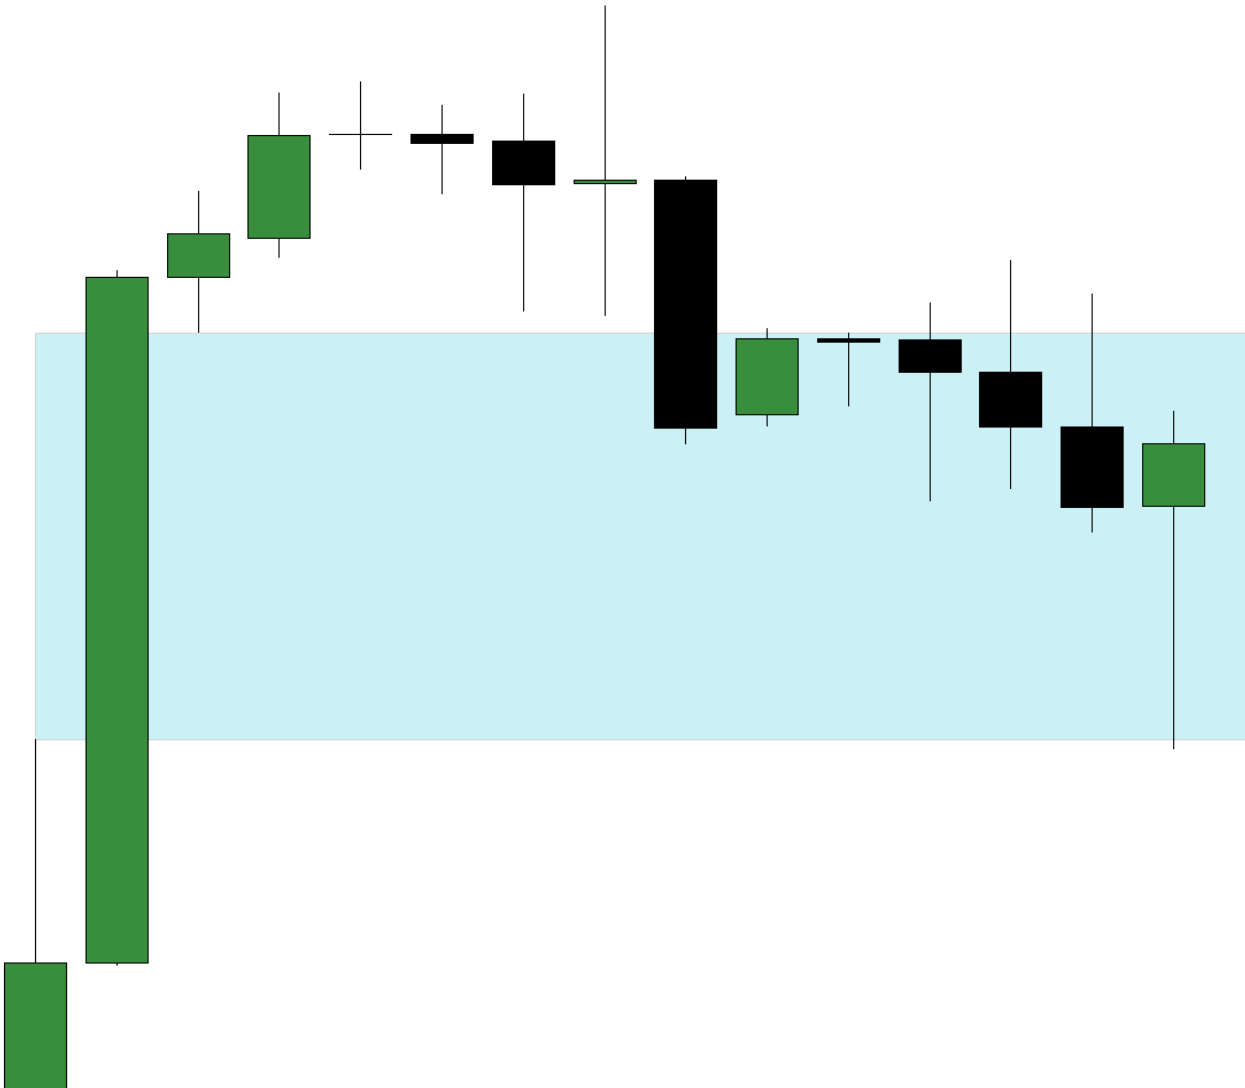

# Example 1. Retracement to FVG

**Or are we waiting for  
the retracement until  
here?**

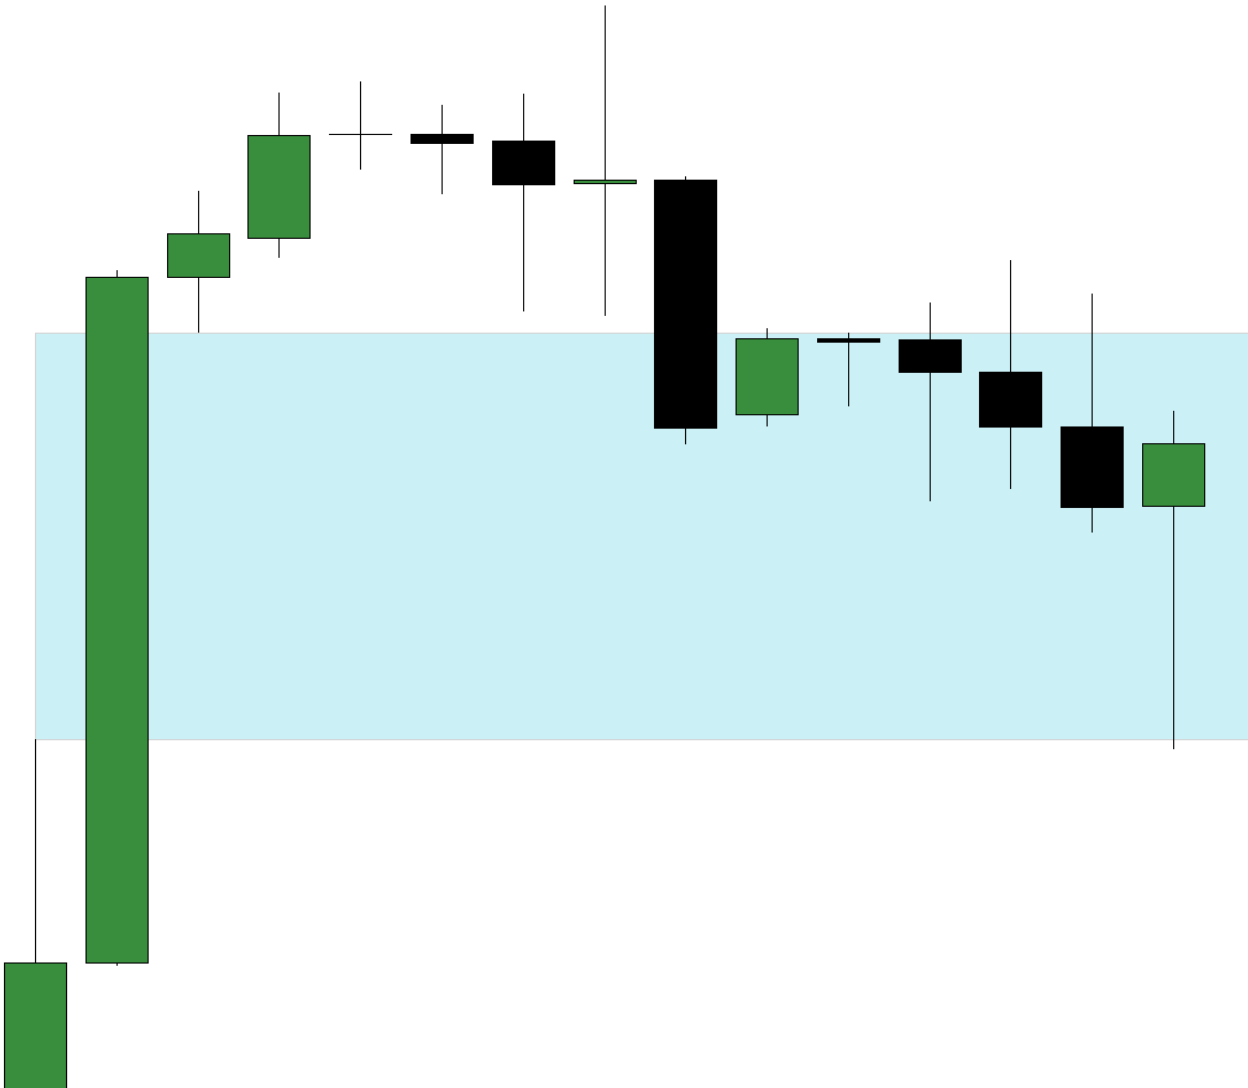

# Example 1. Retracement to FVG

**As we said, this is a strategy that uses ONLY the 4h time frame!!**

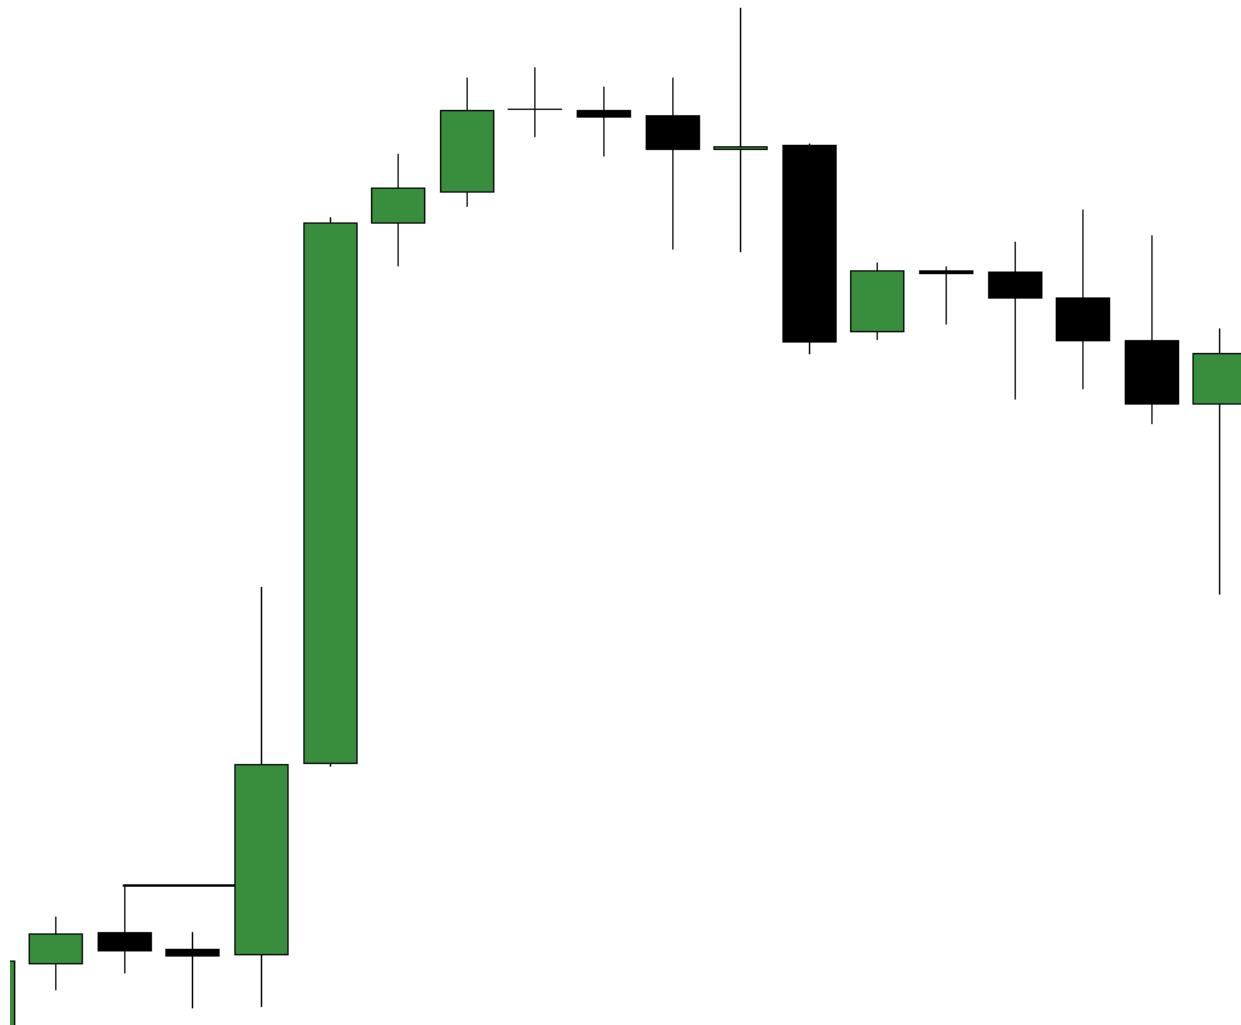

# Example 1. Retracement to FVG

**As we said, this is a strategy that uses ONLY the 4h time frame!!**

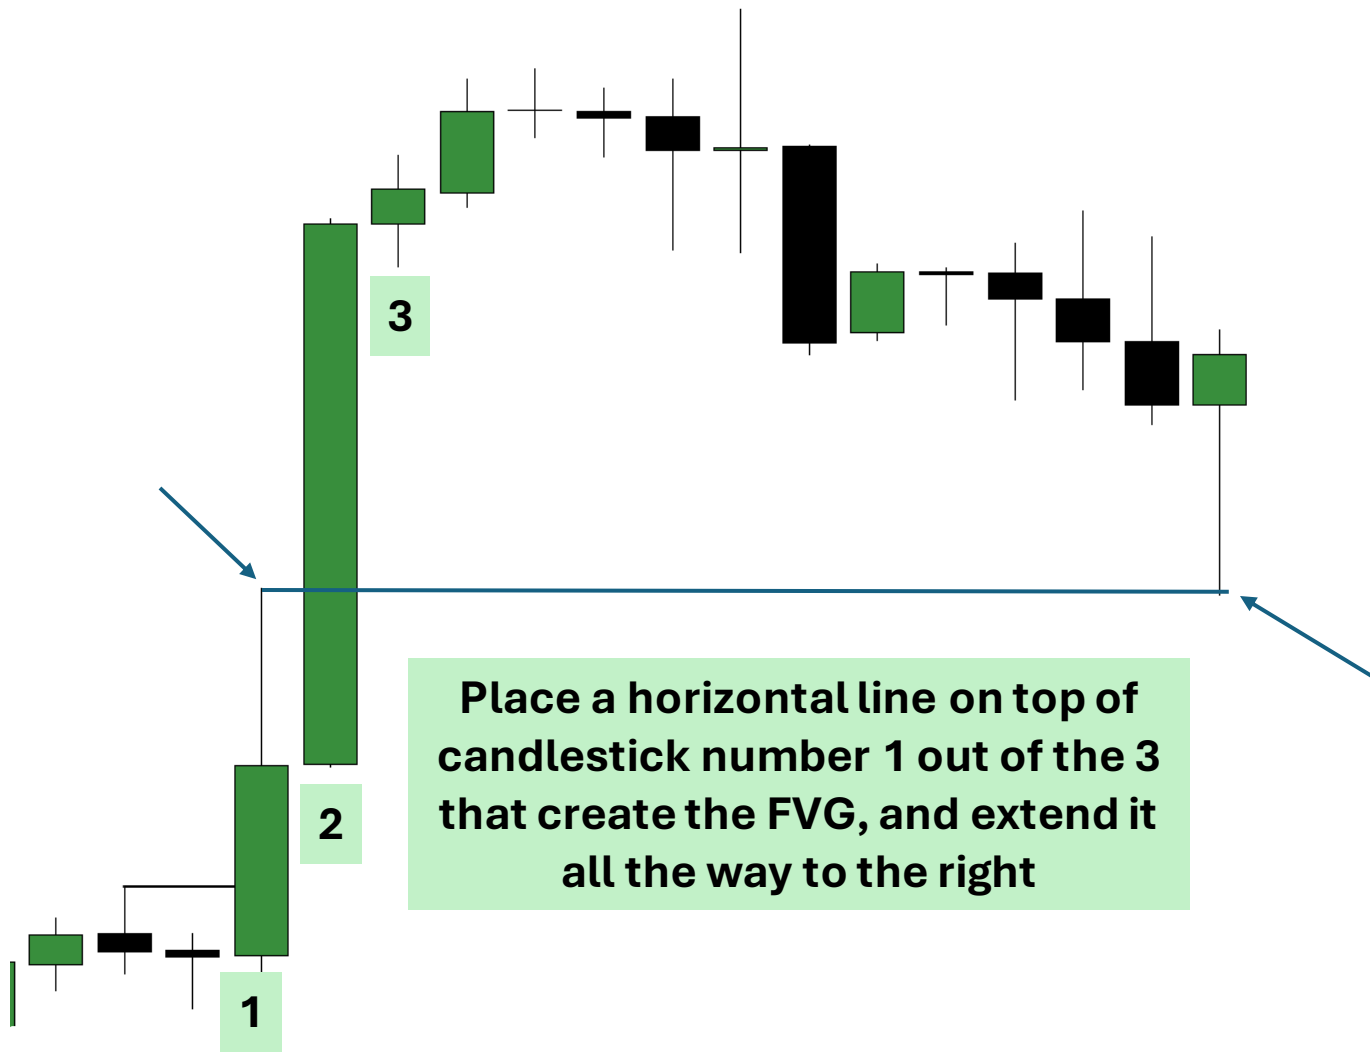

**Hence, we will use a "trick" that I will show you with the next slides**

# Example 1. The "Trick"

## The "trick" is Simple!

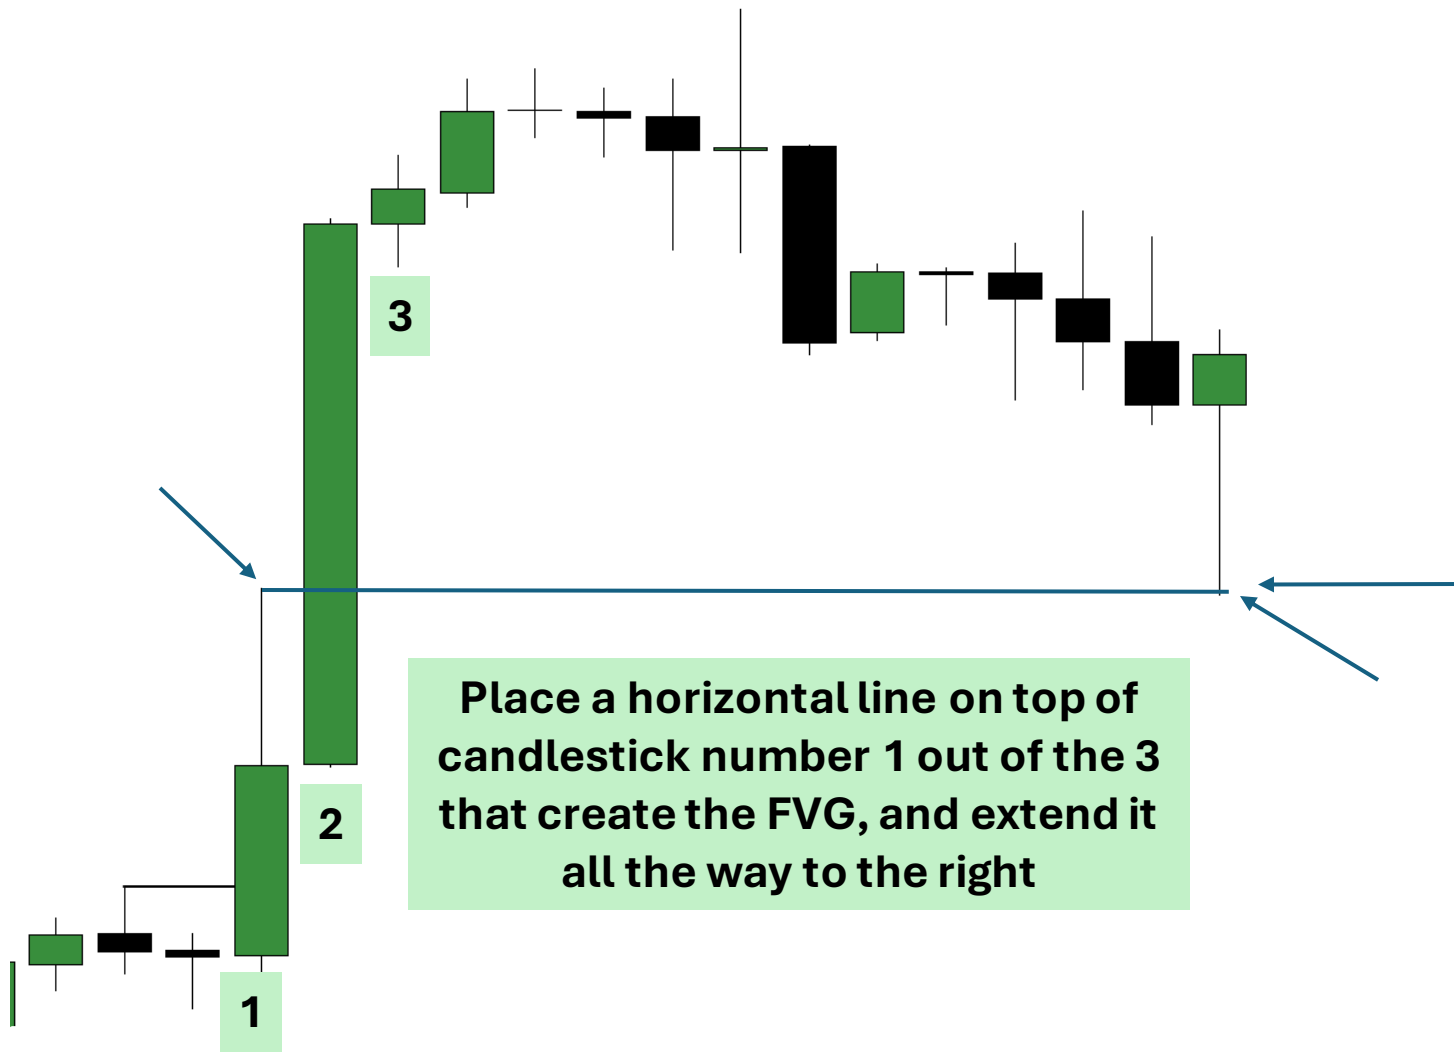

# Example 1. The "Trick"

Place a horizontal line on top of candlestick number 1 out of the 3 that create the FVG, and extend it all the way to the right

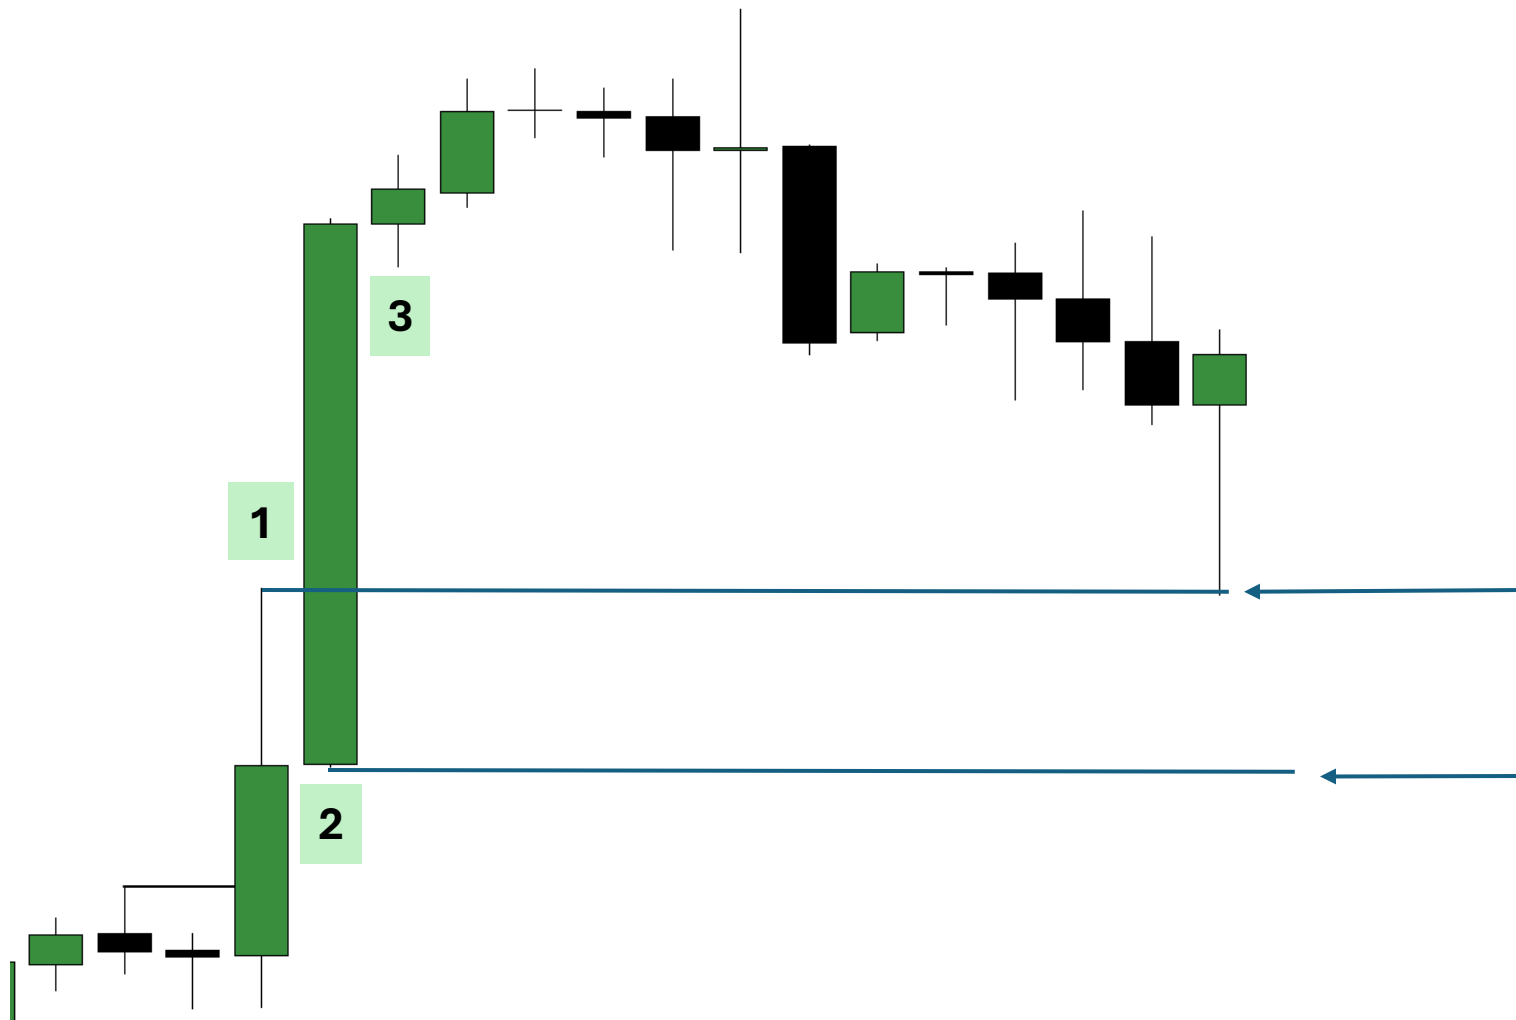

The "trick" is Simple!

# Example 1. The Entry

**This is going to be our ENTRY!!!**

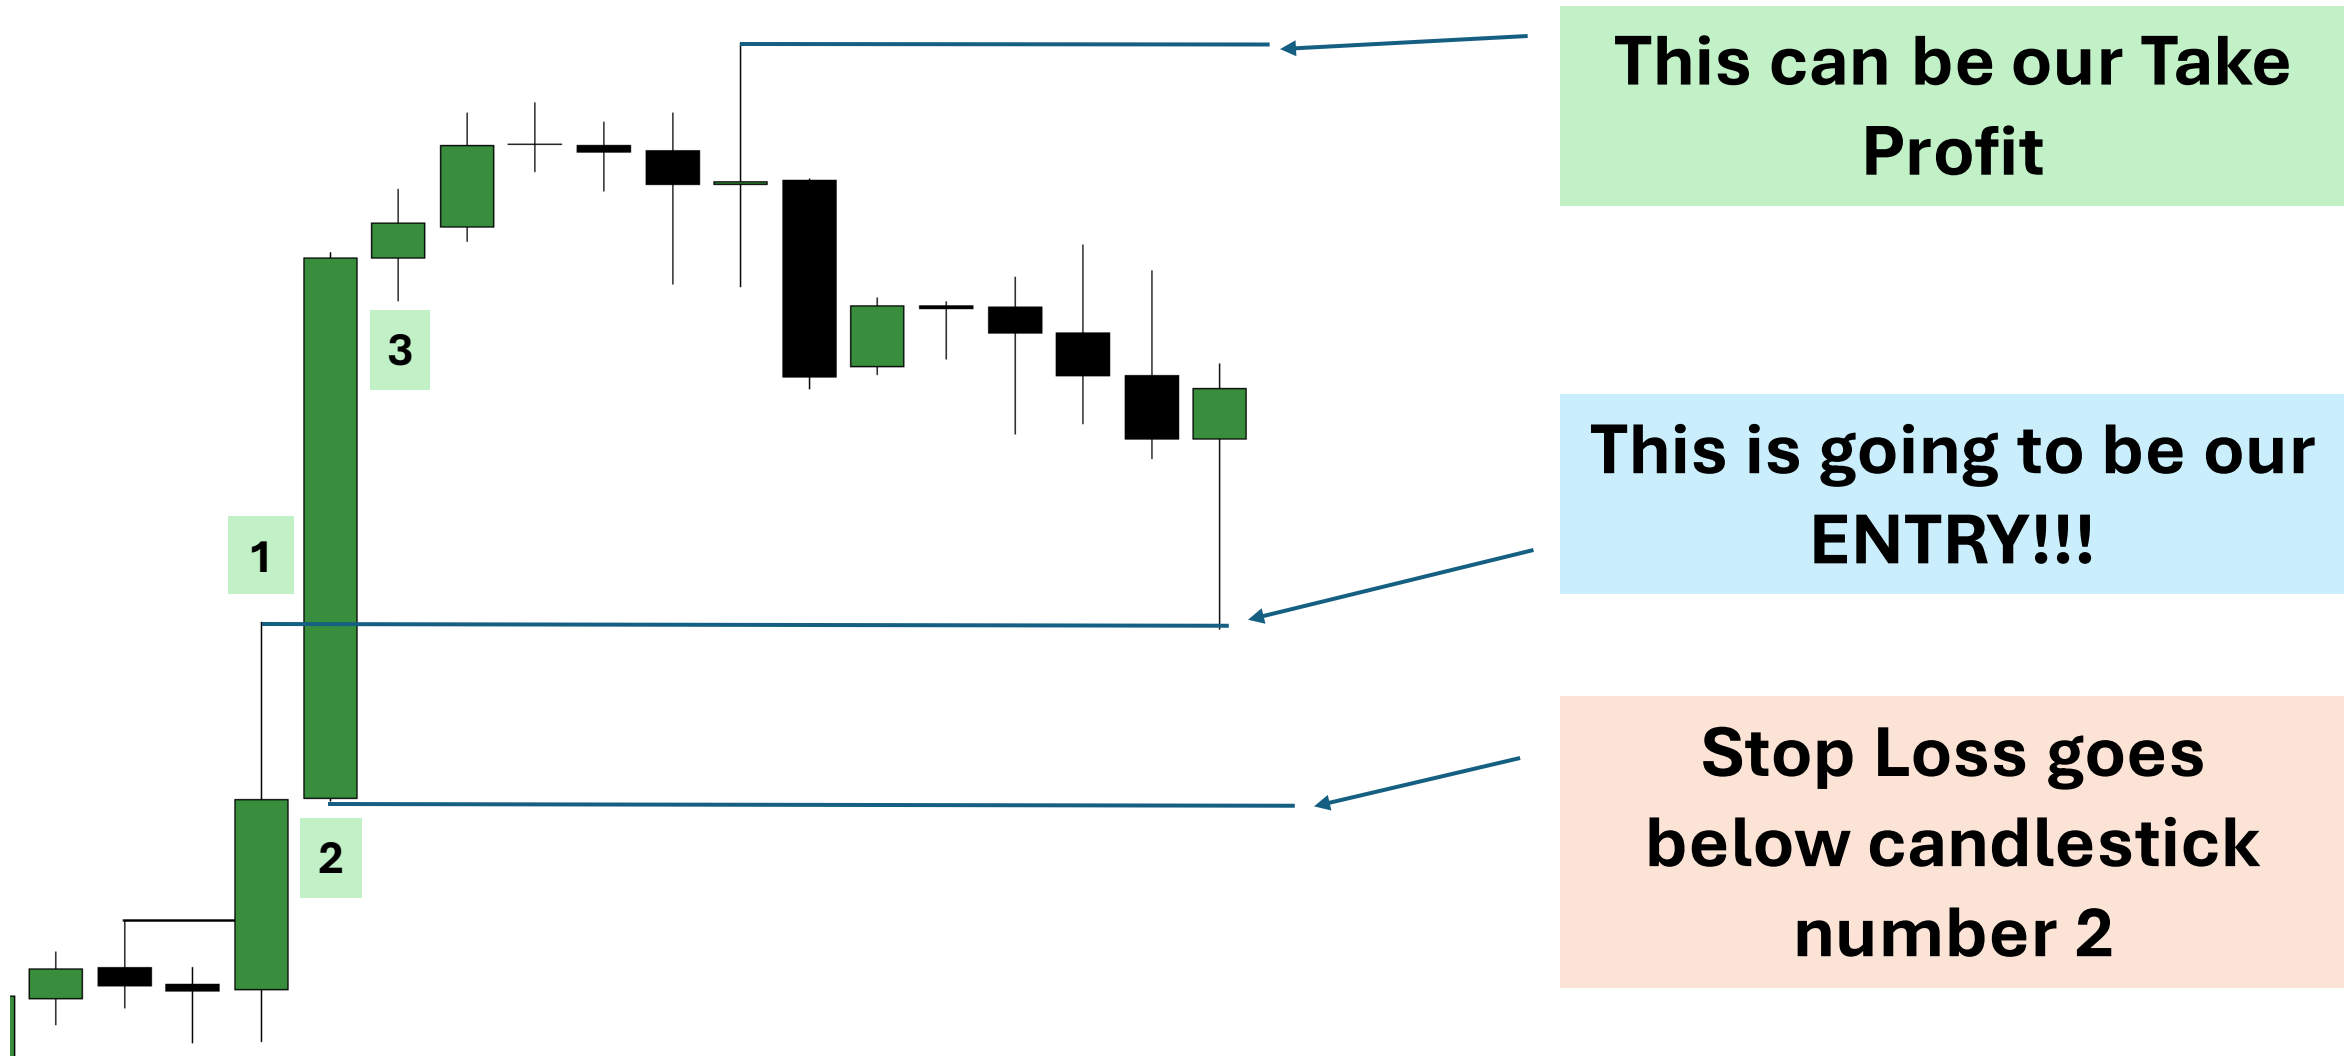

# Example 1. The Stop Loss

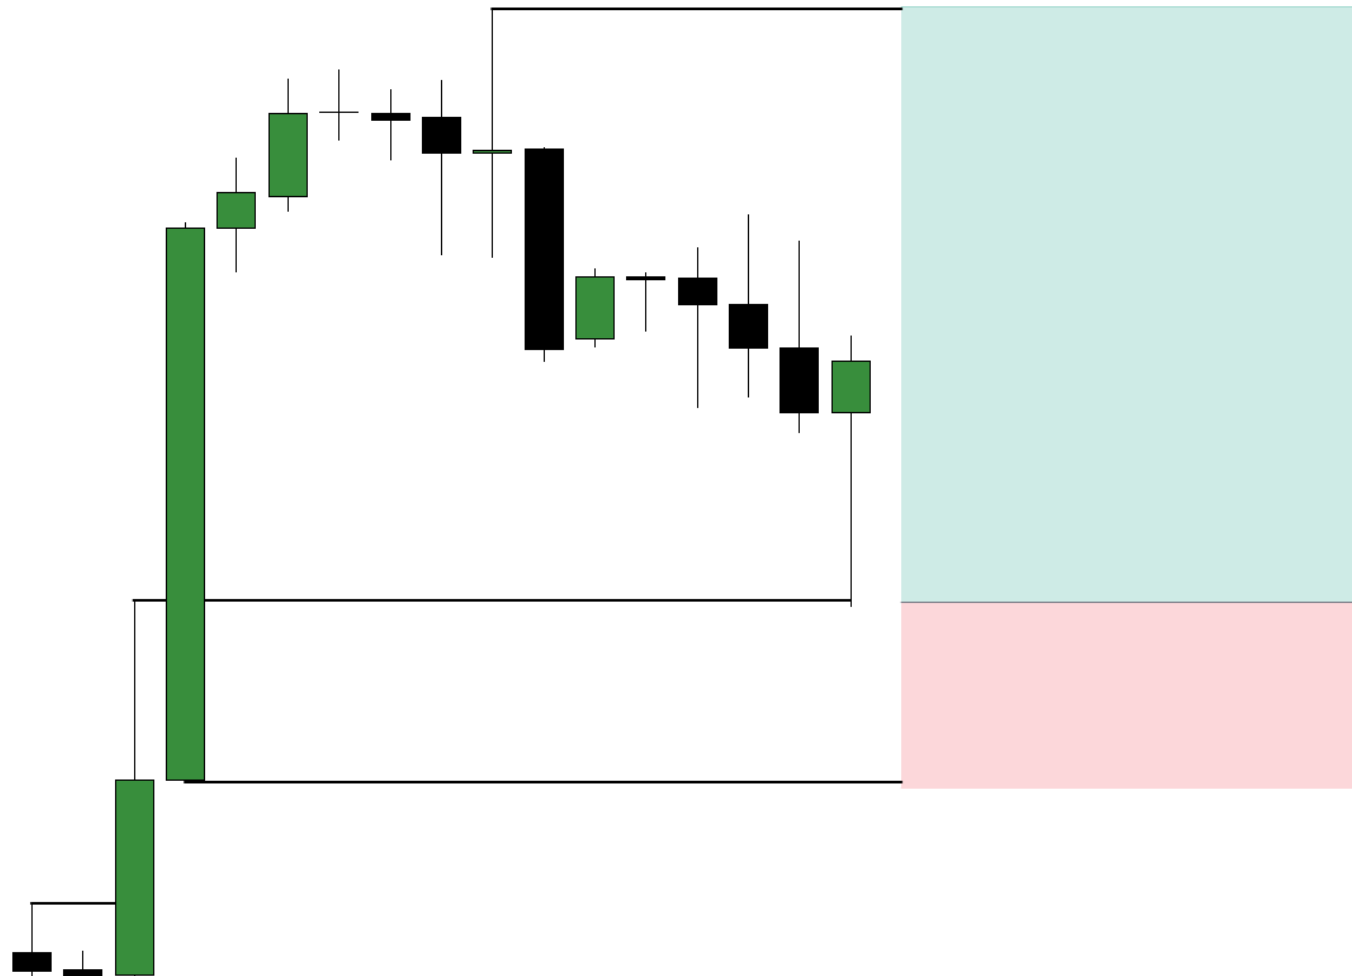

**This is going to be our  
ENTRY!!!**

**SL goes  
below candlestick  
number 2**

# Example 1. Take Profit

# Example 1. Whole Trade

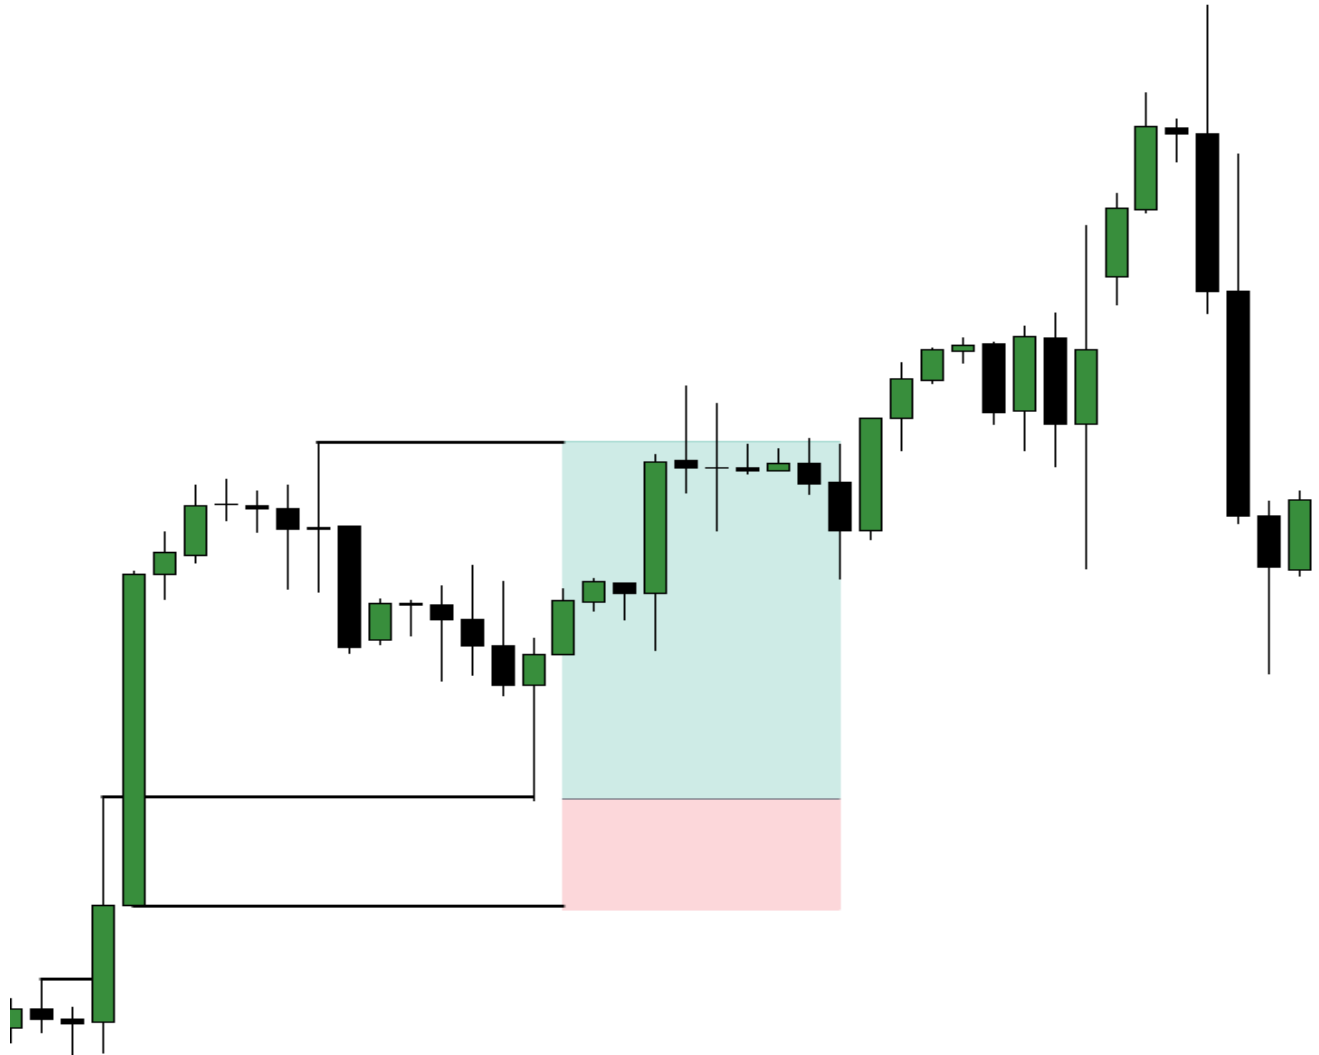

**This is how our trade looks like on the chart**

**You can target previous highs or lows ( previous high in this occasion)**

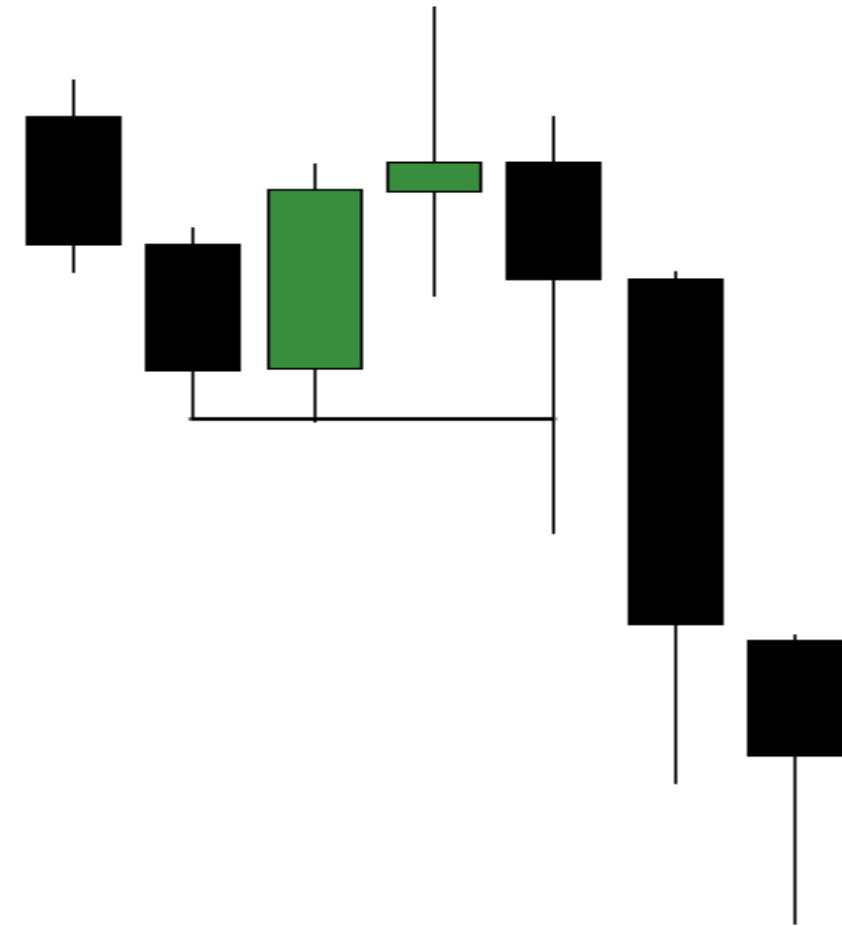

# Example 1. Target

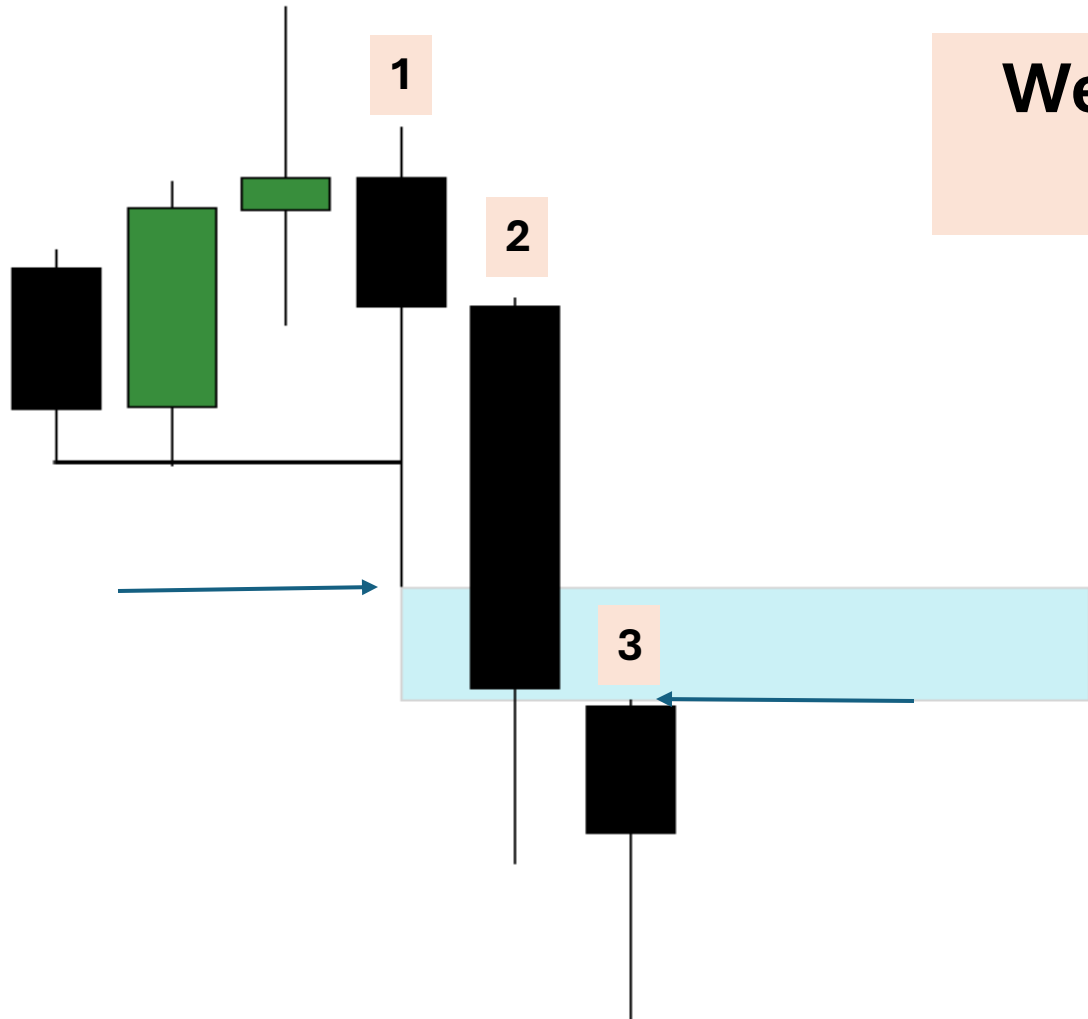

**If you would take profit on the swing high (as seen in the image on the left), this would have given you a 3.2/1 RR**

## Example 2. Most Recent Leg

**This is the most recent price action leg. We are looking to sell since we have broken structure towards the downside**

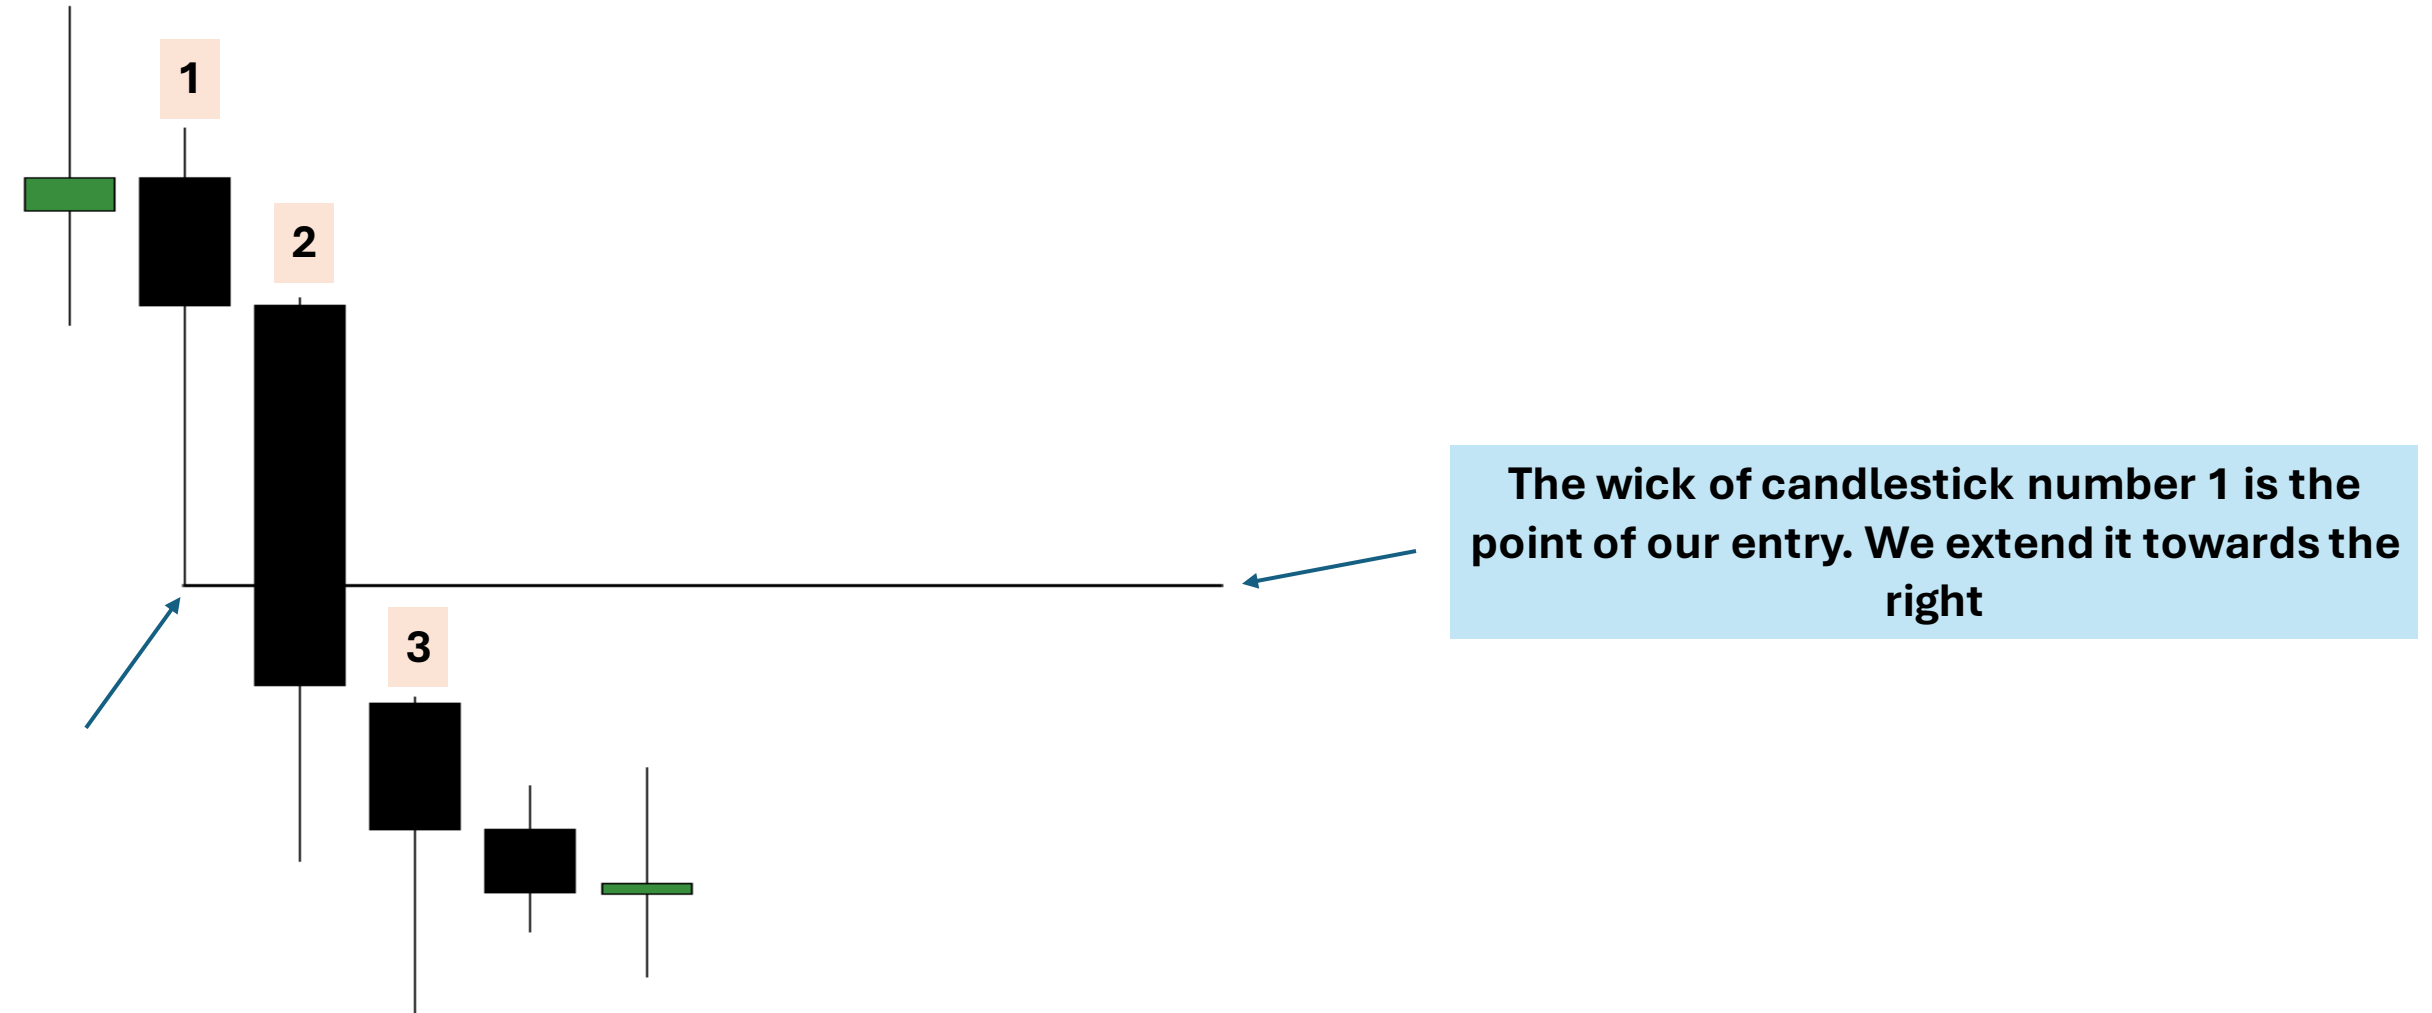

# Example 2. FVG Identification

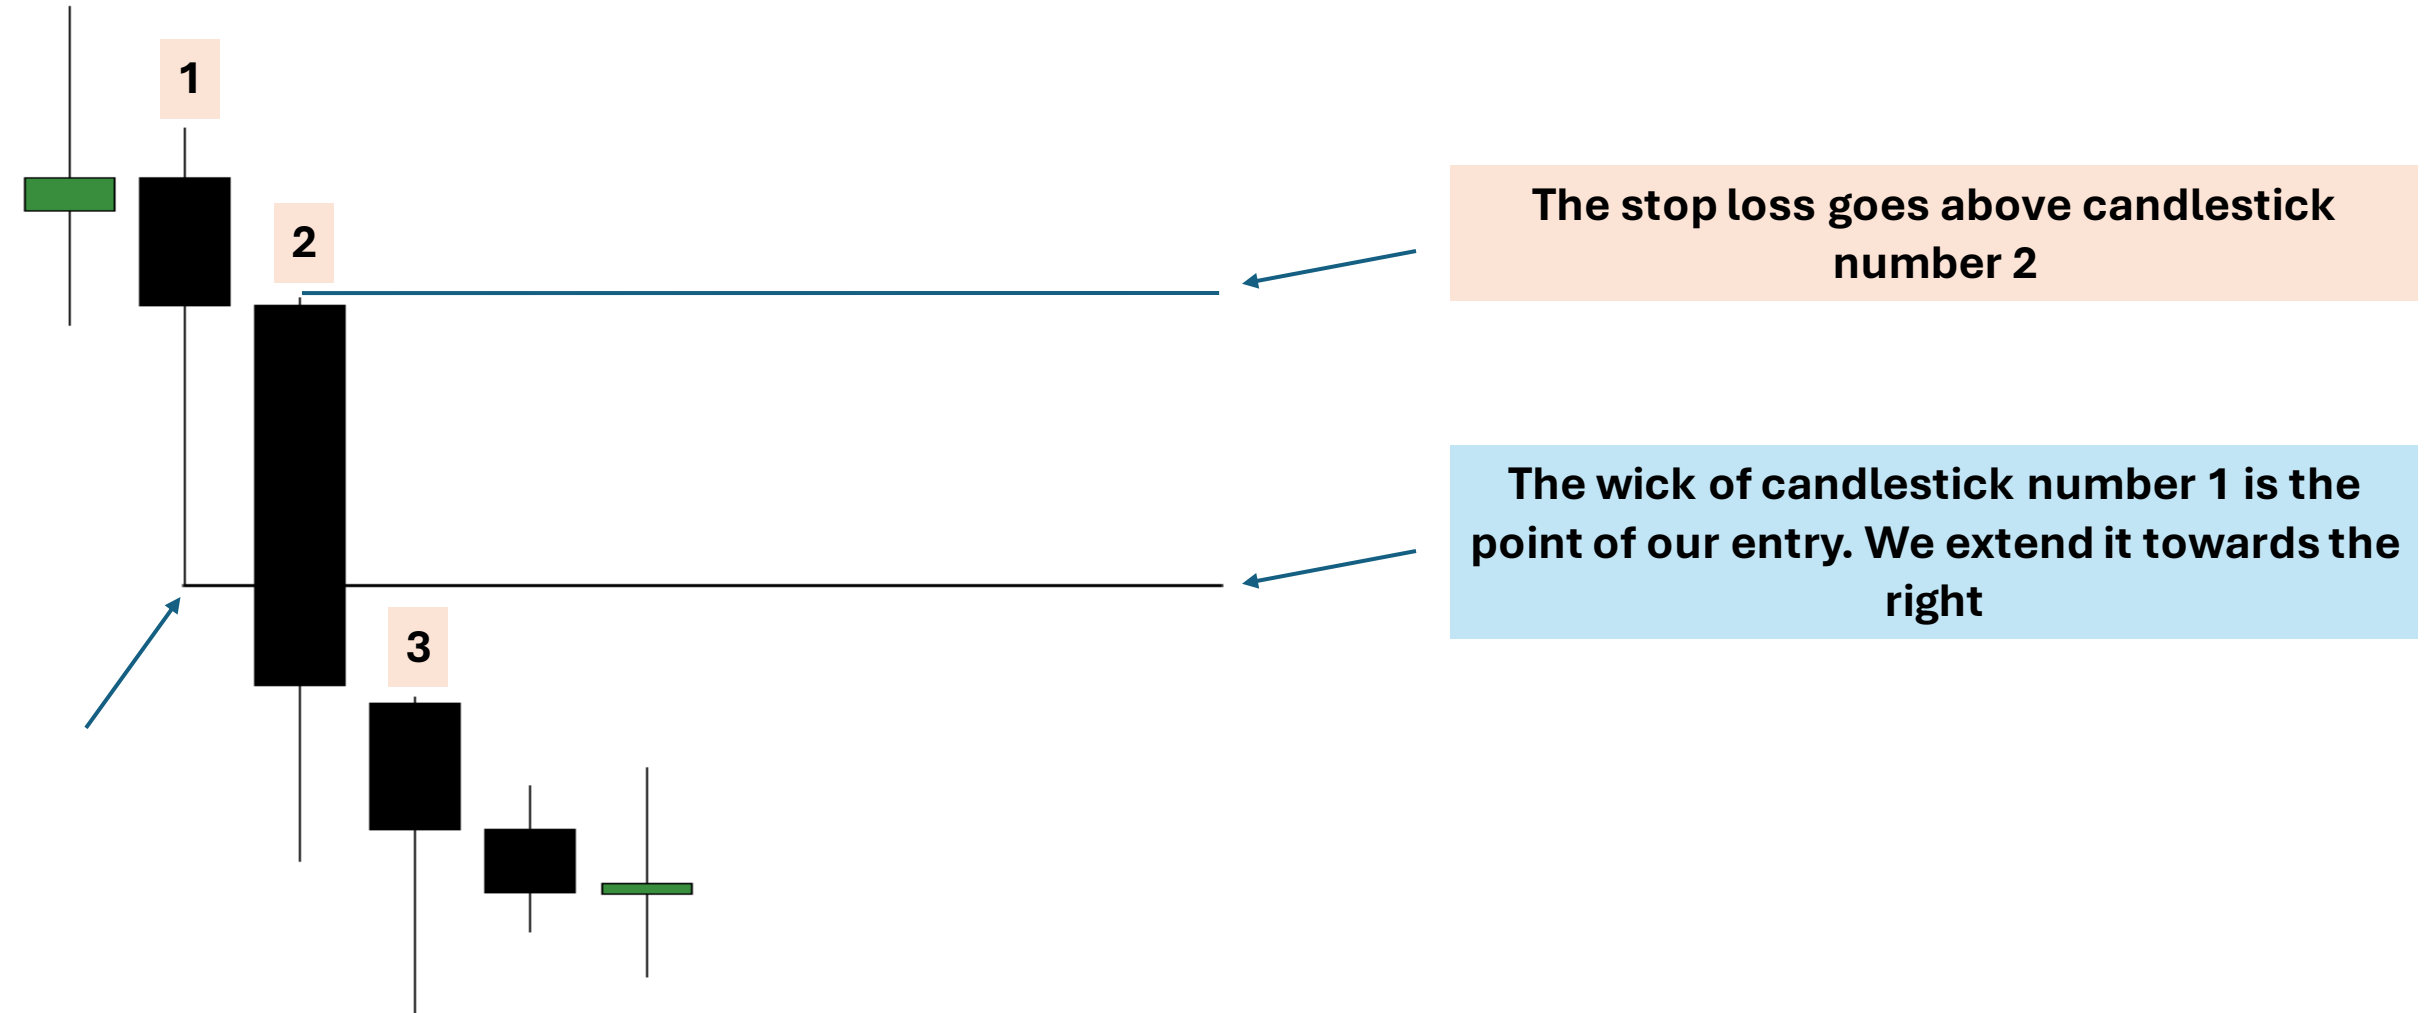

**We have an FVG on the 4h time frame, so we can proceed with our strategy**

**The FVG area is the untested (empty) area of candlestick number 2. The FVG is always created by 3 candlesticks (1,2, and 3)**

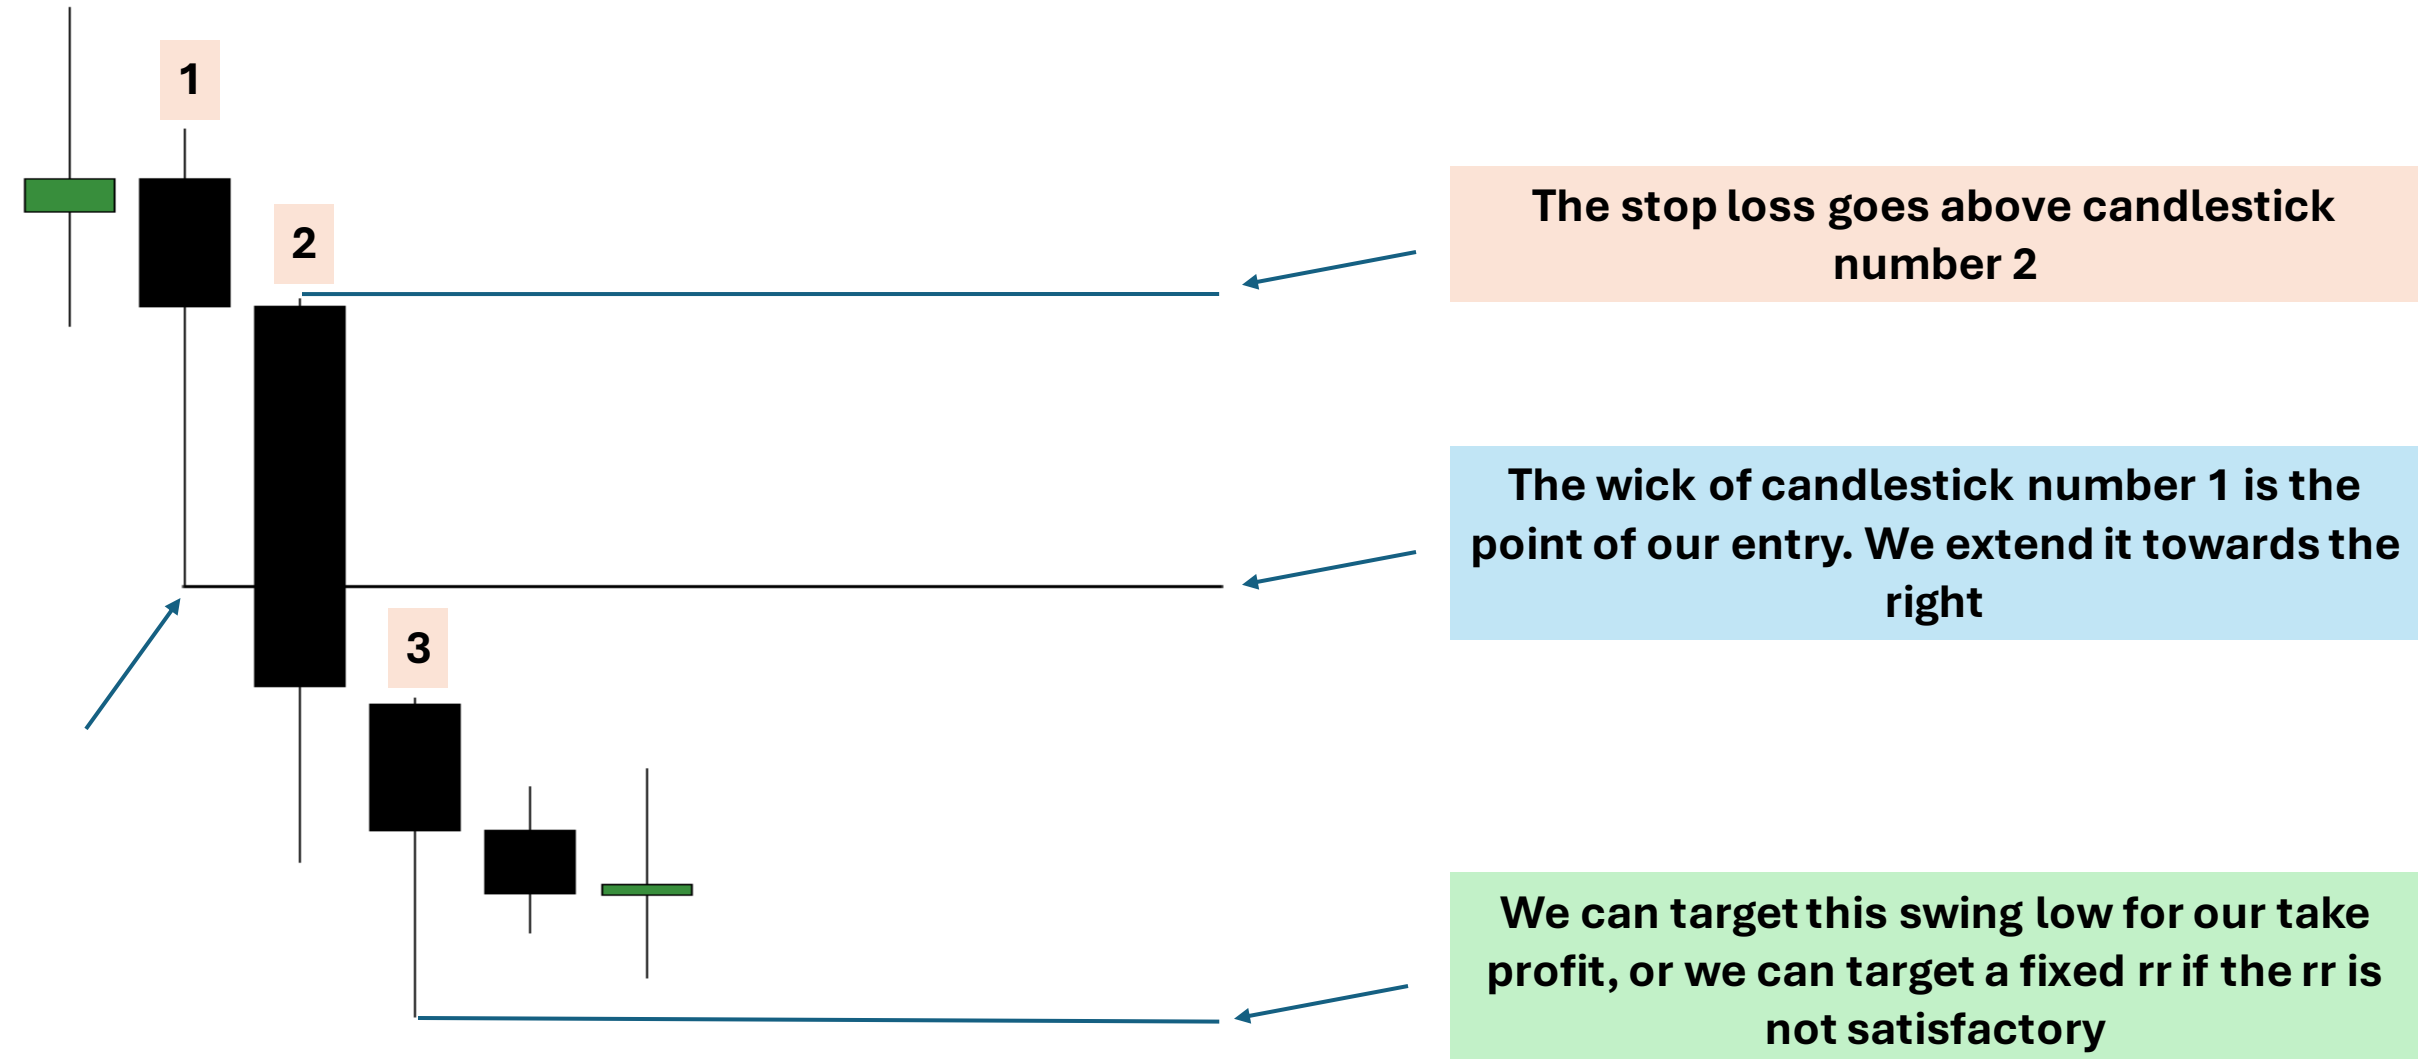

# Example 2. Point Of Entry

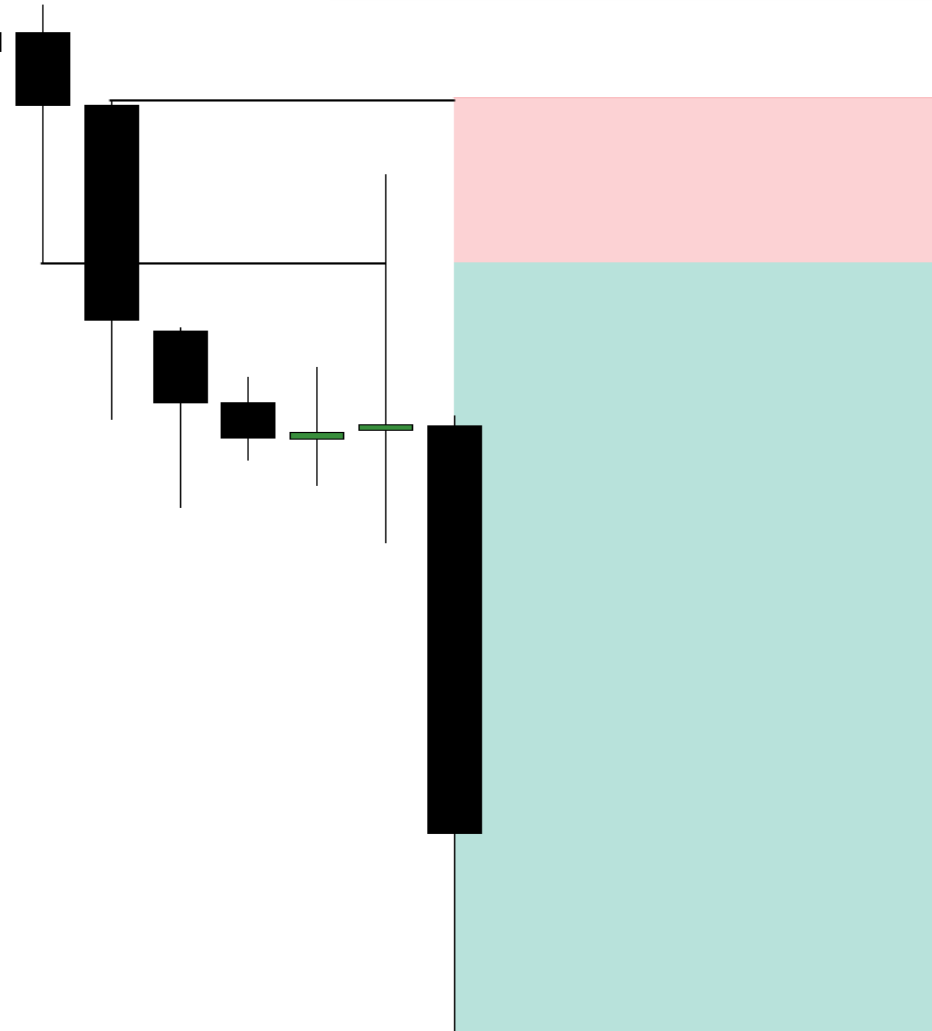

# Example 2. Stop Loss

# Example 2. Take Profit

# Example 2. Whole Trade

**Feel free to target any rr that you have tested. You can go for fixed rr. In this occasion, the max rr was a 4.6/1 rr.**

**DO YOUR BACKTESTING!!!**

# THE END

**MY RESULTS on Nasdaq until the 12th of June 2024 and since I started trading this strategy!!!**
